APW, now ABB Customer World

Join us for Food & Beverage Day March 14, 2017

The food and beverage industry faces a dual imperative of maintaining competitiveness and profitability while adhering to ever higher standards for safety and regulatory compliance. Fortunately there are tools and technologies that can help.

This full day of curriculum and networking will give insights into what the industry's leading players are doing to increase efficiency, ensure safety and manage compliance with solutions that also deliver benefits to the bottom line. **Whether you are a food & beverage manufacturer or you serve the industry, this day is for you. Join us for the day and stay for the whole week!**
