Automation & Power World Harnessing the power of change

Automation & Power World
March 2-5, 2015
Houston, Texas

ABB's Automation & Power World is your source for connections, information, new and emerging technologies and proven strategies from around the world.

From past lessons learned to the future revealed, Automation & Power World saves you money, time and manpower. Ask your questions, deliver your feedback to the developers themselves, take advantage of hands-on training by experts and let ABB's customers and project managers tell you exactly how to maximize value from current assets.

What's new at APW in 2015?

- Daily keynote headline sessions
- Applications and best practices in industry, utilities and infrastructure
- Industry forums designed to facilitate peer to peer dialogue and problem solving
- More technical training and hands-on training
- Re-designed conference content provides you with practical information you can put to use immediately
- A Technology & Solution Center exhibit floor organized around you to maximize and simplify your experience.

Our goal is to make the most valuable use of your time by giving you an innovative look at new ideas, trends and technologies that can impact the way your company moves forward.

APW 2015 registration is now free for ABB customers and other industry professionals!
