

Mobile Solutions Truck

See the complete line of Blackburn® (featuring the Color-Keyed® system) and Hovac connectors including the latest products to help solve your toughest applications.

- The truck is equipped with Thomas & Betts application tooling from basic hand tools to the newest in battery operated tool technology
- T&B Product Application Specialists will provide training and troubleshooting for improving installation methods and finding solutions for the most challenging applications
- Receive hands-on product demonstrations that illustrate the features, benefits and proper applications of each product

HOW **FAST** ARE YOU?

Confirm. Crimp. Connect.

Blackburn® **HEXFLEX** **CHALLENGE**

Attendees are timed on performing two HexFlex crimps on pre-stripped flexible wire using T&B Color-Keyed lugs and a 15-ton battery operated crimping tool. Participants then connect the crimped lug to a 3-phase ABB panel.

Color-Keyed® HEX-FLEX™ Crimp Dies for Flex Cable provides an inspectable, high-performance crimp on flex-conductor cables.
