## Optimize your Business and refine resources performance

Cairo

Abu Dhabi

Singapore

Turkey

ABB Training provides comprehensive and professional Training either at ABB premises or your own depending on What suites you best.

## Training Courses Offered by ABB University available for Technicians & Engineers

Take time to plan your training and choose from

### Control System

- T315C System 800xA Engineering with CBM
- T315H System 800xA Engineering with PG2
- T315F System 800xA Engineering Using Function Designer
- T315D System 800xA Engineering Using Diagram
- T305 System 800xA Administration & Installation
- T308 System 800xA Hardware & Troubleshooting
- T314 System 800xA Basic Modification
- T310 System 800xA Operation
- T320 System 800xA Advant Connect
- T321 System 800xA Harmony Connect
- T365 Compact Control Builder AC800M
- T366 Compact Human System Interface
- T568 Freelance System Engineering
- T530 Configuring AC800 M using Control Builder M

### Medium Voltage

- EGM116 Medium Voltage (Advanced)
- EG243 Operation and Setting of REF542plus Relay Terminal
