ABB Training provides comprehensive and professional Training either at ABB premises or your own depending on What suites you best.

**Training Courses Offered by ABB University available for Technicians & Engineers**

Take time to plan your training and choose from

**Control System**
- T315C System 800xA Engineering with CBM
- T315H System 800xA Engineering with PG2
- T315F System 800xA Engineering Using Function Designer
- T315D System 800xA Engineering Using Diagram
- T305 System 800xA Administration & Installation
- T308 System 800xA Hardware & Troubleshooting
- T314 System 800xA Basic Modification
- T310 System 800xA Operation
- T320 System 800xA Advant Connect
- T321 System 800xA Harmony Connect
- T365 Compact Control Builder AC800M
- T366 Compact Human System Interface
- T568 Freelance System Engineering
- T530 Configuring AC800 M using Control Builder M

**Medium Voltage**
- EGM116 Medium Voltage (Advanced)
- EG243 Operation and Setting of REF542plus Relay Terminal

*40% return on investment Graph

Control System
ROI with trained staff
ROI with poorly trained staff
Well trained engineers deliver faster start-ups
Start-up complete
Human performance drops as new engineers and maintenance staff are given less training
Continuous training delivers improved results by using the latest methodologies

Invest in your Resources

Drives
- G310 Standard Drive, Start-up & Service Hands On (ACS310)
- G355 Standard Drive, Start-up & Service Hands On (ACS355)
- G165 Standard Drive, Start-up & Service Hands On (ACS550)
- G166 Standard Drive, Start-up & Service Hands On (ACS550)
- G300 Single Drive Operation & Maintenance (ACS600)
- G152 Standard Drive Operation & Maintenance (ACS800 - 01)
- G156 Single Drive, Start-up & Service Hands On (ACS800 - 07)
- G380 & G381 Start – up & Basic Maintenance, Hands on
