ABB IN THE UNITED STATES

Auburn Hills, Michigan
Facility Overview

What we do in Auburn Hills
Design, engineer, and manufacture innovative and customized industrial robotic systems. Auburn Hills is ABB’s North American robotics headquarters and the first major industrial robotics factory in North America. We also conduct robotics research and development, service, and software development.

Who we serve
ABB’s robotics, machine automation, and systems are used by a variety of manufacturers and industrial facilities across North America. Our robotic offerings help automakers, food packagers, display and solar PV factories, distribution centers, healthcare and pharmaceuticals, and others competitively manufacture here in the U.S. by increasing productivity, improving worker safety, and lowering cost.

ABB in the U.S.
ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization, increasing productivity and boosting efficiency.
