ABB IN THE UNITED STATES

Plano, Texas
Facility Overview

What we do in Plano
ABB's Plano facility provides innovative critical power solutions including DC power solutions (products and services) and embedded power products, which are used by manufacturers of a wide range of equipment.

Who we serve
Our customers - primarily in telecom/5G, networking, data centers, and industrial applications such as oil and gas, utility, power generation, and robotics - are in rapidly changing, disruptive environments where information, access and response times are redefining their markets. They require reliable and efficient power that supports their increasing infrastructure, ensuring that data flows 24/7, while optimizing their footprint, energy costs and operations. These customers rely on ABB to provide the latest industry insights and technology to partner and co-develop solutions needed to meet their evolving challenges.

ABB in the U.S.
ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization, increasing productivity and boosting efficiency.
