Westerville, OH  
43082

**Offering**  
Process Automation  
Systems and Services

**Number of employees**  
150

**Operational since**  
2003

### What we do in Westerville

With a legacy in Central Ohio since the 1950s (Combustion Engineering, AccuRay, Industrial Nucleonics), ABB Westerville serves as ABB's U.S. Center of Excellence for Quality Control Systems and provide sales and technical support as well as project execution, on-going support and service, and parts distribution to facilities that use ABB automation and control systems. This includes, 24/7 remote monitoring of their facilities and customer service. From Westerville, we can detect and diagnose maintenance and operational challenges, craft solutions, and walk our customers through implementations that can boost plant efficiency, improve up-time, and resolve maintenance issues.

### Who we serve

In Westerville, we support energy, process and utility facilities in a variety of industries, including Cement, Chemicals, Metals, Mining, Oil & Gas, Power Generation, and Pulp & Paper.

### ABB in the U.S.

ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization, increasing productivity and boosting efficiency.
