Westville, Oklahoma Facility Overview

Location
305 Ballman Rd
Westville, OK
74965

Offering
Electric Motors

Number of employees
450

Operational since
1974

What we do in Westville

Design and manufacture electric motors, including our trusted Baldor-Reliance brand motors. ABB's AC motors are used to move pumps, fans, compressors and material handling equipment a wide array of industrial and commercial facilities as well as agriculture. Our brushless servo motors are designed for applications that require high levels of precision, acceleration and torque, like x-ray machines, CT scans, 3D-printing, industrial robots, and material handling.

Who we serve

ABB motors produced in Westville provide reliable, efficient rotational power that is used in manufacturing plants across the country to produce everything from agriculture and irrigation, to food products and minerals, to chemicals, energy and building materials. ABB's DC Servo motors are used by medical device companies and high precision manufacturing processes like distribution and packaging.

ABB in the U.S.

ABB is a leading global technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future.
