Using the ABB Supplier Inquiry Form

Introduction
The ABB Supplier Inquiry Form is designed to allow our suppliers to quickly inquire about the status of an open invoice. In this document, we will explain how to fill in each section of the form.

Inquiry Details

The first section of the form is used to gather some basic data about your inquiry.

You must check the box indicating whether your request is a Payment Status Inquiry or a Remittance Status Inquiry.

Next, change the drop-down under “Is this request concerning a credit hold or cutoff notice” to Yes if the request does concern one of those items...otherwise leave as-is.

Finally in this section, choose whether your request is a new entry or a follow-up entry to one you have already submitted. You will be asked, if you choose “Follow-Up,” to provide a case number. (A case number for every entry you make is e-mailed to you when you submit a request. Reference this e-mail to provide this information.)

Requestor Information

The Requestor Information section requires you to enter your full name and e-mail address. Make sure to enter your e-mail address correctly or you will not receive a response.
In this section, enter your first and last name in the **Requestor Name** field and enter your full e-mail address in the **Requestor E-mail** field. If your e-mail is entered incorrectly, you will not receive any notifications or follow-up communication from ABB!
