

ABB

Let's write the future. Together.

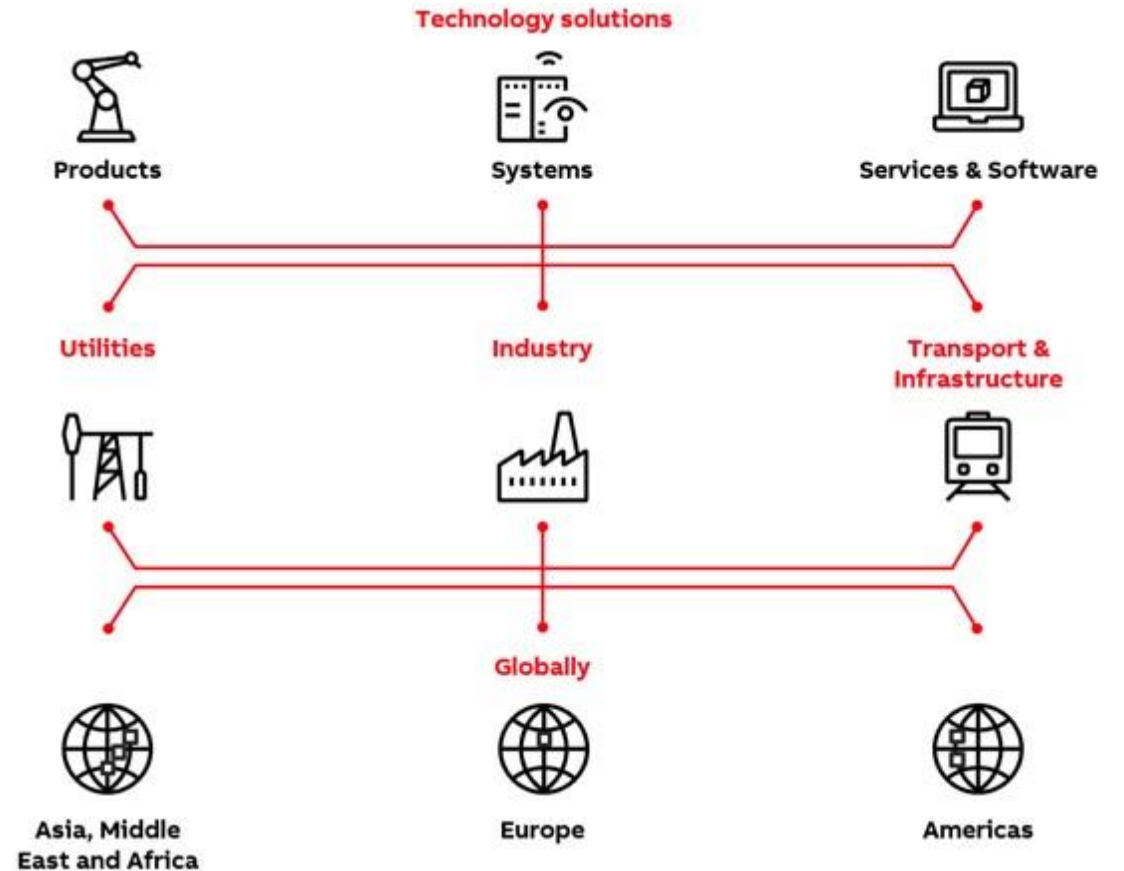

This is what we do

ABB in Canada is a leading technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future. By connecting software to its electrification, robotics, automation and motion portfolio, ABB pushes the boundaries of technology to drive performance to new levels. With a history of excellence stretching back more than 100 years, ABB's success is driven by 3 100 talented employees in our 29 locations from coast to coast.

ABB

ABB Way Forward

Following our purpose and leveraging our strong positions in Electrification, Motion, Process Automation and Robotics & Discrete Automation, we aim to create superior value for

all our stakeholders. With our purpose at its core, the way we operate – the ABB Way – is our lever to implement our strategy.

By pushing the boundaries of technology and embedding sustainability in everything we do, our people drive the performance of our market-leading and empowered businesses to new levels. Together with our common values, strong brand and governance framework, the ABB Way is leading us to become a more focused, successful, value-creating company.

The Canada story

Strategically growing in the markets we serve

Balance through strategic acquisitions

- 1989** ABB acquires the **Westinghouse** transmission & distribution business, marking ABB's entrance to North American power and industrial market
- 1990** ABB acquires **Bomem Inc.** a leader in FTIR technologies, pushing the envelope for quality and precision of analytical products and systems
- 1999** ABB acquires **Elzag Bailey** (US \$2 bn), supporting growth in various process industries
- 2008** ABB acquires **Ber-Mac Electrical and Instrumentation**, expanding its presence and capabilities in the oil and gas sector
- 2009** ABB acquires **Sinai Engineering Corporation**, to enhance its presence and capabilities in Western Canada.
- 2010** ABB acquires **Ventyx** (US \$1 bn), adding robust enterprise software to our portfolio
- 2011** ABB acquires **Baldor** (US \$4.2 bn), supporting growth with industrial motors and drives
- 2011** ABB acquires **Envitech Energy** to strengthen its offering and solutions for the rail infrastructure market
- 2012** ABB acquires **Thomas & Betts** (US \$3.9 bn), supporting growth with distributors and electrification products
- 2013** ABB acquires **Power-One** (US \$1 bn), supporting growth in renewable energy markets
- 2017** ABB acquires **B&R** to close the gap in machine and factory automation, creating a comprehensive automation portfolio
- 2018** ABB acquires **GEIS** (US \$2.6bn) supporting growth with electrification products

The ABB Way

Our operating model

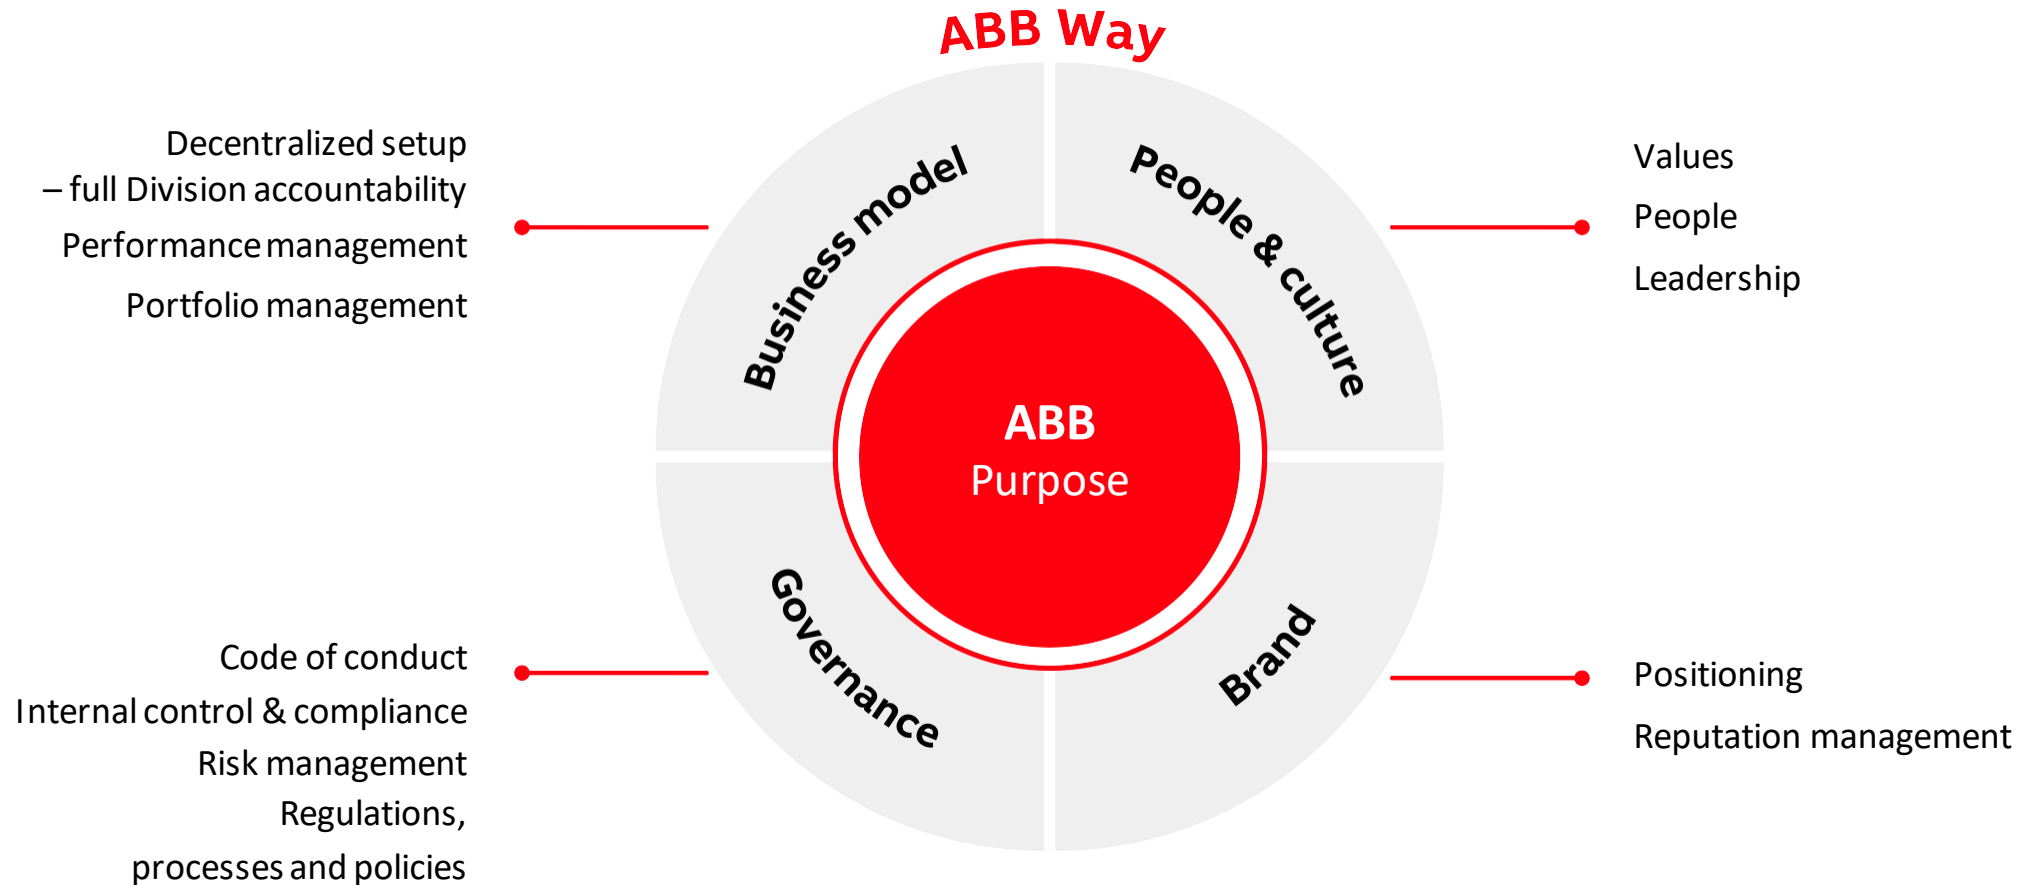

With our company purpose at its core, the ABB Way empowers our divisions with full ownership and accountability for their strategies, performance and resources, while serving as the “glue” that holds our Group together.

The ABB Way consists of two parts; “how” we operate and create superior value, namely with our **Business model**, **People & culture**, **Brand** and **Governance**, and our purpose, “why” we are in business.

The ABB Way provides standardized policies, processes and systems, including portfolio, performance and risk management as well as internal control and compliance.

The ABB Way

The ABB purpose

We enable a more sustainable and resource-efficient future with our technology leadership in electrification and automation.

performance

Our priorities

Market leadership

Market leadership is key to the long-term success of our divisions. We aim to maintain or strengthen a no. 1 or no. 2 position in all markets by providing our customers with leading products, systems and solutions. Market leadership helps to improve profitability, drive superior returns and enable growth opportunities for our people.

Our priorities

Market Technology & digital

Our world-class technology and domain-led digital capabilities are deeply embedded in our DNA.

Maintaining and improving our innovation, technology and digital leadership is a strategic priority across divisions. Pushing the boundaries of technology and digital enables us to help our customers attain new levels of performance and clearly differentiate ABB's offering.

Accelerating value creation through digital

Focused on creating superior customer value

Differentiation through domain expertise

Expansion driven by businesses

ABB Ability™

Insight. It's the power to see and understand how something works in a new way, to unravel complexity and take action. It comes from visibility, intelligence and experience. It's what makes transformation possible.

ABB Ability solutions combine ABB's deep domain expertise with connectivity and software innovation to empower real-time, data-driven decisions for safer, smarter operations that maximize resource efficiency and contribute to a low-carbon future.

Our large portfolio of digital solutions helps organizations automate, optimize and future-proof their business to achieve new heights of performance and drive sustainable progress.

Our priorities

People

We believe our people are the most critical ingredient to our long-term success. A culture of diversity, inclusion and equal opportunity is critical to our business success and makes us stronger.

Relying on our people's unique attitude, experience and domain expertise, we push the boundaries of technology to drive performance, shape new business models and find new ways of working that make our customers, partners and society better off.

Our priorities

Portfolio management

Through active portfolio management we systematically evolve our portfolio at all levels of the organization to reinforce our divisions' market leadership by investing in growth, M&A activities and portfolio consolidation.

On the one hand, we continuously question whether we are the best owner of our divisions; on the other, we steer our businesses in line with their respective strategic mandates. Lastly, we actively pursue synergetic acquisition opportunities to fill white-spots and steer our overall portfolio mix towards high-growth sectors.

Our priorities

Sustainability

At ABB, we believe that sustainable development means progress towards a healthier and more prosperous world for future generations. This means balancing the needs of society, the environment and economy. To achieve this, we act and embed this approach to business across our value chain, creating superior value for all our stakeholders.

As we push the boundaries of technology, we support our customers to preserve resources and enable a low-carbon society. We act with integrity and transparency at the core of our governance, and we promote social progress for our people and communities around the world.

Our priorities

Financial performance

By pairing our strategic priorities with a continuous improvement mindset, we aim to deliver improved performance in line with our financial framework:

- 8% average annual revenue growth through economic cycle¹
- 14.2% operational EBITA margin²
 - Electrification: 18.6%
 - Motion: 9.8%
 - Process Automation: 18.3%
 - Robotics & Discrete Automation: 4.8%
- ~100% cash conversion²
- 36.8% ROCE²
- EPS growth > revenue growth

**We promote social
progress**

**INTEGRITY AND
TRANSPARENCY**

Main sustainability ambitions

2030 targets

Sustainable Value Chain

We enable a low-carbon society

- **Carbon neutrality** in own operations
- Support our customers in reducing annual CO₂ emissions by **>100 Mt¹**
- Work with most impactful suppliers to reduce their emissions by **50%**

We preserve resources

- **80%** of ABB products & solutions covered by circularity approach
- **Zero waste** to landfill²
- Supplier Sustainability Framework

We promote social progress

- **Zero harm** to our people and contractors
- Comprehensive D&I framework³; **25% women** among ABB leaders
- **Top-tier** employee engagement score in our industry
- Impactful support for community-building initiatives

INTEGRITY AND TRANSPARENCY ACROSS OUR VALUE CHAIN

1. Savings in the year 2030 from solutions provided to customers 2021-30

2. Wherever local conditions allow

3. Diversity & Inclusion framework

ABB Purpose

We enable a low-carbon society

We reach carbon neutrality in our operations by 2030 and partner with our customers and suppliers to reduce their emissions.

Integrity

We promote social progress

We take care of our people and promote social progress with our partners, suppliers and in communities.

Transparency

We preserve resources

We embed circularity by reducing waste, improving recycling and fostering reusability.

Our priorities

Financial performance

By pairing our strategic priorities with a continuous improvement mindset, we aim to deliver improved performance in line with our financial framework:

- 8% annual average revenue growth through economic cycle¹
- ≥14.2% operational EBITA margin as from 2023
- 36.8% ROCE
- ~100% cash conversion
- EPS growth > revenue growth

¹Calculated to exclude FX impacts and transformational acquisition and divestments, includes bolt-on acquisitions and divestments within divisions
