

ABB ABILITY™ ZENON ELECTRIFICATION EDITION ZEE600

Power Management and Control
for Distribution Network

The Heart of Your Data Centre

ZEE600 is a next-generation Power Management System (PMS) that seamlessly integrates MV/LV Switchgears, UPS, BMS and Generators, bringing your entire power ecosystem into one intelligent platform.

- Real-time visibility
- Unified energy insights
- Improved uptime & efficiency

From source to rack, **ZEE600** keeps your data centre beating stronger.
