

ABB UNIVERSITY KAZAKHSTAN

Training courses

2022-2023 Price list

Welcome to ABB University Kazakhstan!

ABB University Kazakhstan offers power grid, industrial automation and drives trainings.

Scheduled courses

Enrollments

You are able to enroll for the courses via ABB myLearning or by email: abbuniversitykz@abb.com

Please see the latest training schedule updates on website new.abb.com/kz/abb-university

ABB University Kazakhstan reserves the right to change course schedules, programs and contents. Enrollment is closed if maximum number of participants is registered. Upon the training request is received ABB University Kazakhstan specialist will contact you and consult you on the possibility of your participation. If the group is full you will be offered alternative dates. Please note that some courses may have prerequisites to take online trainings.

Course program

The roadmap of ABB University Kazakhstan, located in 53 Abylai Khan Ave., BC Abylai Khan Plaza will be sent to the participants 1-2 days prior course begins. Access to the business center is allowed only if you are registered. Please have your identity card/passport with you. The courses begin at 9.00 am and finish at 6.00 p.m. Coffee and lunch are included in the course fee.

E-learning

Some of classroom courses have a theory-based e-learning course to be studied. In this case, you will receive an email notification from ABB MyLearning on necessity to take certain courses.

Course prices

Course prices are specified in Table 1 for one participant from company in KZT without VAT.

Reservations

A scheduled course may be cancelled due to low enrollment. In case of course cancellation you will receive a notification 3 weeks prior course begins. A maximum number of participants has been defined for every training course in order to meet the safety and depending on equipment availability and it normally varies between 5-8 persons.

The link for self-registration will be sent once application form for selected course is received.

On-request courses

If specific courses are required, please send a request to ABB University Kazakhstan specialists by mail: abbuniversitykz@abb.com and clarify possible training options.
