

	SA-S-005-02 ABB Way HSE & Security MS Document Links - External Business Partners			
	Document kind ABB Way - Management System	Revision G.2	Document Status Released	Effective date Wednesday, October 06, 2021
9AAL000142A0902	Prepared by Catherine Nguli	Security level Internal	Language en	Page 1 (4)

Introduction

The documents linked within are part of ABB's management system for Health, Safety, Environment, Security and Sustainability (HSE & Security). The purpose of the ABB Way documents is to establish the minimum HSE & Security requirements to be met at all ABB facilities, projects and customers' sites unless legislation and/or local regulation impose a higher standard in which case that higher standard shall be followed.

Our aim is to ensure tasks being carried out on behalf of ABB involving hazards with a high level of risk are given deeper analysis. Additional controls shall be implemented to ensure the safety and health of all employees and contractors and to prevent any harm or damage.

Scope

These ABB Way documents apply to all ABB employees and contractors working in all ABB legal entities, including joint ventures/ consortia/ working partnerships with management control at ABB facilities, projects and customers' sites.

External business partners are authorized to use, reproduce, and share documents with its employees and subcontractors to ensure compliance with ABB's HSE expectations.
