Day 1- June 22, 2016

Room	B1	B2	B3	B4	B5	Auditorium F1
7:00 - 9:10	Registration					
Session 1 9:20 - 9:50	Storage and distribution management of hydrocarbons (Yadira Alpizar and Juan Tapia - Spain) 	Minimizing losses enabling modernization of the underground electrical network (Carlos Hernandez - USA) 	Assuring quality in renewable energy generation (Rene Mendoza - Mexico) 	Maximize the security, productivity and efficiency of your Capacitor Banks (Konstantinos Papapaschalis - Italy) 	Very large capacity mine hoist systems (Tim Gartner - Canada) 	Forum: Trends in the Oil & Gas Industry (Moderated by Milton Mendez from Petroleo & Energia Magazine's Editor in Chief) (60 min) 9:30 - 10:30 hrs.
Session 2 10:00 - 10:30	New technological developments of ABB for Automation and Protection of the substation (Alejandro Cuellar - Mexico) 	Energy efficiency in the sugar industry (Yuridia Perrotin - Mexico) 	Benefits of level measurement and control in industrial processes (Adiel Garcia - Mexico) 	ABB's IoTSP in Action: Integrated operations for marine (Alberto Pérez Espinosa - Suiza and Palemia Field - Nueva Zelanda)  	Energy efficiency: building a better world (Kai Pollari - Finland) 	
10:40 - 12:40	Opening Ceremony (Mega Sessions Room E1) Welcome remarks - Pierre Comptdaer, Managing Director of ABB Mexico Master Conference - The Future of Automation and YuMi World Tour / Ulrich Spiesshofer-CEO of ABB Conference by Dr. Enrique Ochoa Reza - Managing Director, Federal Electricity Commission (CFE)					
13:50	Technology Solutions Center Opening (Exhibition Floor) / Lunch					
Session 3 16:00 - 16:30	Introduction to HVDC (Jan Johansson - Sweden) 	In ABB Contactors, state-of-the-art is our standard (Alejandro Cajaleon - Peru) 	ABB solutions for construction (Noe Altamirano - Mexico) 	Performance calculations in thermal plants (Richard Vesel - USA) 	Robotics Customer Service and the Internet of Things (Arno Strotgen - USA) 	Forum: ABB partner of choice in a world class service by Greg Scheu / Case of success in the Cement Industry - Drake Cement (60 min) 15:30 - 16:30 hrs
Session 4 16:40 - 17:10	HVDC Technology - Connecting the center with the Southeast (Jan Johansson - Sweden) 	Overvoltages under control....Surge Protection Devices (Jose Javier Campayo - Spain) 	Solutions for control and protection for the automation of Industry and MV Substations (Edgar Perez - USA) 	Lifecycle management program for control systems, Automation Sentinel (Steven Burt-USA) 	Dynamic Shunt Compensation - FACTS for reliable grid support and improved power quality (Marcio Oliveira - Brazil) 	
Session 5 17:20 - 17:50	Maximum performance of Automation equipment through optimization of system, control loops, cyber security, mine hoists and QCS (Daniel Dias - Brazil) 	Solar power solutions: Everything you need for sustainable success (Ciro Amitrano- Italy) 	Power Energy efficiency in water (Milton Chavez - Mexico) 	Technologies for emission monitoring Part I) (Dough S. Baer - USA) 	LV monitoring solution for Motors (Michael Offik- USA) 	Forum: Market opportunities through Energy Transition (Moderated by Aldo Santillan, Global Energy / Industries Editor in Chief) Special participation of Claudio Facchin (60 min) 17:00 - 18:00 hrs.
20:00	Closing of the Exhibition

Agenda at a glance

Day 2- June 23, 2016

Room	B1	B2	B3	B4	B5	Auditorium F1
7:00 - 9:00	Registration					
9:00	Exhibition opening					
Session 6 9:40 - 10:10	Demand Control: How to avoid peak demand penalties (Ricardo Ocadiz - Mexico) 	Solutions for control and protection of solar panel plants (Edgar Perez - EUA) 	Motion Control System for rolover axis and linear axis application (Marcial Ferrua - Mexico) 	Hydrocarbon pipeline management with Scadavantage (George Quesada - Canada) 	Automated fast charging system for electric buses (Johan Peeters - Netherlands) 	Forum ABB: Solutions for growing Data Centers market Noe Altamirano
Session 7 10:20 - 10:50	Mechanical Parts reduction in cooling towers & remote controlling with ABB Drives (Abraham Rodriguez - Mexico) 	Robotics automation from auto makers to small businesses (Sergio Bautista-Mexico) 	SmartESt for Medium Voltage - Doing more with less (Hector Aguilar - Mexico) 	How a ring bus design and the combination of MV apparatus equipment is utilized to maximize reliability and power in a metropolitan city network distribution system (Roger Espert - USA) 	ABB's New Generation of SF6 Dead Tank Circuit Breaker (Michael Lane - USA) 	Special participation of Tarak Mehta (60 min) 9:40 - 10:40 hrs
Session 8 11:00- 11:30	ABB solutions for Mining Industry and bulk conveyor applications (Victor Martinez - Mexico) 	Why does soft starting matter? (Alejandro Cajaleon - Peru) 	Forum Energy management in the wholesale electric market (60 min) 11:00-12:00	Life Cycle management of ABBs Excitation Systems (Harald Mossbacher - Switzerland) 	Secondary distribution for business infrastructure. Think ABB, think Different (Atle Taalesen - Norway) 	Conference: Challenges and opportunities in the Food & Beverage Industry Special Participation of Sami Atiya (60 min) 11:00 - 12:00 hrs
Session 9 11:40 - 12:10	Energy Efficiency with Medium Voltage Drives for process industry (Arnulfo Rojas - Mexico) 	Hybrid Modules in Power Plants (Stefano Cervidi - Italia) 		Power Protection for commercial and industrial applications (Perry Field - New Zealand) 	STATCOM - an efficient way to comply with grid code requirements and enhance power output of windfarms (Anna-Asa Hellstrom - Sweden) 	
12:20 - 13:20	Master Conference - Future of electrical sector in Mexico / CENACE and the Energy Regulatory Commission (Auditorium F1)					
13:30 - 15:30	Lunch					
Session 10 15:40 - 16:10	"Active Protection" Switchgear Arc Resistance (Daniel Martínez - Mexico) 	Reliable and safe operation for Switchgear of medium and low voltage under the scheme after sales service (Luis Cruz - Mexico) 	Technologies for emission monitoring (Part II) (Matias Clavin - Germany) 	Direct Drive Technology for Cooling Towers (Michael Offik - USA) 	Flow Measurement Solutions - Spirit It (Harry Kok - Netherlands) 	Forum: Industry 4.0 and Internet of Things and its impact on productivity (Moderated by Alberto Bello, Editor Director of Group Expansion)
Session 11 16:20 - 16:50	Efficiency and reliability during construction projects (Josemaria Jimenez - Mexico) 	IoTSP: Automation and Control in the palm of your hand (Marco López - Mexico) 	World Class Quality (Francisco Ramos - Colombia) 	MNS-MCC Intelligent Motor Control Center, the next level! (Owen Parks - Estados Unidos) 	Technological innovation for air encapsulated substations extension (Thomas Schultz - Suiza) 	Special participation/ Peter Terwiesch "ABB technology leadership" (60 min) 15:50 - 16:50 hrs.
17:00	Closing of the Exhibition					
17:00 - 17:50	Closing ceremony & Donation to ANSER Foundation - Greg Scheu, President of the Americas region for ABB and Pierre Comptdaer, Managing Director of ABB Mexico (Auditorium F1)
