14:50 – 15:30	F&B break
15:30 – 16:10	Dry-type transformers for safety, reliability and environmental impact for F&B
16:10 – 16:50	Achieving your maximum product quality using ABB outstanding measurement technology
16:50 – 17:00	Closing

Welcome

Dear business partners,

Food and beverage manufacturers share similar goals: produce safe, high quality goods in a sustainable and cost efficient way. With increased awareness on how resources like energy and water contribute to overall cost efficiency and sustainability, companies continually search for ways to meet their goals while using resources more efficiently.

ABB is here to help you to meet these goals. Our broad, leading portfolio of products, solutions, and services will improve food quality and safety, reliability, flexibility and scalable manufacturing with optimal asset utilization across the plant. This helps you remain competitive in the dynamic, consumer driven market.

As part of our commitment and support to our valued business partners, we cordially invite you to join us in a seminar:

Day, date : Wednesday, September 5, 2018
Time : 08.30 - 17.00 WIB
Venue : ShangriLa Hotel Surabaya (Ballroom A)
Jl. Mayjen Sungkono No. 120, Surabaya 60256

In this event, you will be receiving the latest updates of ABB's technology and solutions for food and beverage industries from ABB's experts.

We are looking forward to welcoming you in our event!

Best regards,
ABB in Indonesia
