About ABB

ABB is a pioneering technology leader with a comprehensive offering for digital industries. With a history of innovation spanning more than 130 years, ABB is today a leader in digital industries with four customer-focused, globally leading businesses: Electrification, Industrial Automation, Motion, and Robotics & Discrete Automation, supported by its common ABB Ability™ digital platform. ABB's market leading Power Grids business will be divested to Hitachi in 2020. ABB operates in more than 100 countries with about 147,000 employees.

In Indonesia, ABB has been present for more than 30 years and operates in 15 locations, comprising of R&D center, factories, sales offices, and service workshops.

Whether it's digitalization, innovation, advanced manufacturing or urban infrastructure, ABB's technologies complement Indonesia's future roadmap perfectly. With our extensive business scope and established market presence, we have a bold vision to do more for our customers, and to be part of Indonesia's economic transformation.
