Welcome

Dear valued customer and partner,

The fourth industrial and energy revolutions are resulting in technology advances that drive greener and more efficient energy management solutions. At ABB, we drive progress, ensuring that people and equipment are protected and that the flow of electricity to all points of consumption is managed in the smartest way possible – in homes, factories, stadia and for transport. For everyone.

ABB understands the challenges you face in the industry today. It is focused on providing electrical solutions that address the critical issues in every area of your operation and assuring the quality and reliability of your electrical system throughout your facility, from incoming raw materials through shipping of finished goods

Every building has unique requirements, therefore, our innovative portfolio provides the flexibility in designing and implementing building solutions that adapt easily to individual needs. Moreover, your investment is secured for future modifications and extensions, especially when the building is to be used for a different purpose.

Thus, ABB in Indonesia cordially invites you to join us in:

Building and Industrial Solutions Seminar

Day, Date : Thursday, Sep 6, 2018

Time : 08.30 – 16.00 WIB

Venue : Ballroom A

Shangri-La Hotel Surabaya Jalan Mayjen Sungkono No. 120, Pakis,
