

Invitation to ABB Food & Beverage Day 2016

Innovation and Solutions for food and beverage to improve quality, reliability, and productivity

ABB is a leading global technology company in power and automation that enables utility, industry, and transport & infrastructure customers to improve their performance while lowering environmental impact. The ABB Group of companies operates in roughly 100 countries and employs about 135,000 people.

Our broad, leading portfolio of products, solutions, and services help F&B customers remain competitive in a dynamic, consumer driven market. From improving food quality and safety, running reliable, flexible and scalable manufacturing with optimal asset utilization across the plant, to receiving raw ingredients all the way to end of the line packaging. With ABB solutions, customer can achieve the highest process uptime, deploy permanent trace ability solutions, ensure uncompromised hygiene, maintain unbroken cold chains, protect worker and machine safety, and improve energy efficiency and water optimization.

You are invited to join **ABB Food and Beverage Day 2016**: Innovation and Solutions for food and beverage to improve quality, reliability, and productivity. In this event, we provides various seminar topics and beneficial information about ABB product which can increase productivity for food and beverage industries. This event will be held on **May 25th, 2016** at Phothalai Leisure Park, Bangkok.

Agenda:

09.00 - 09.25	: Register and Refreshment
09.25 - 09.30	: Safety brief
09.30 - 10.00	: Welcome Speech by ABB Managing Director
10.00 - 10.30	: Improving total cost of ownership by addressing major F&B industry trends
10.30 - 11.00	: Coffee break and exhibition
11.00 - 12.00	: Seminar 1

Room 1:
Innovative Substation
for Reliability and Power
Quality Improvement

Substation Automation
System Technology for
Reliability and Power
Quality Improvement

Room 2:
Drive Solutions for
precise process control

Room 3:
How Robotic apply into
Food Processing & High
Speed picking robot for
Finished good products.

12.00 - 13.00	: Lunch
13.00 - 14.00	: Seminar 2

Room 1:
Reliability of MV
Switchgear refer to IEC
Standard

Substation, Distribution
Service and Reliability
Improvement for
uninterrupted process.

Room 2:
Measurement innovation
for high efficient in
Process Control

Room 3:
Robotic in Packing
solution & Robotics for
End of line palletizing

Room 4:
Motor : Improve Food
Safety and Reliability
by Wash Down Motor
and Mechanical
Product Solution.

14.00 - 14.30	: Coffee break and exhibition
14.30 - 15.30	: Seminar 3

Room 1:
Trend & Innovation of LV
Switchgear and LV
components

Room 2:
Integrating Automation,
Solution for F&B Next
Level Transformation

Manufacturing Execution
System - MES Solution to
improve F&B production
process

Room 3:
Innovative products
and solutions for
machine safety

Room 4:
Dynamic power quality
problem can be solved

Improve Productivities
with Power Quality

15.30 - 15.45	: Q&A session Wrap up Lucky draw
