Technical

Technical Information	Note, cooling system have roughly 200 times higher capacity than heater! To avoid condensation within the machine it's important that the heaters system is fully functional and switched on and the cooling system is switched off, when the machine is stand still or in turning gear. Please note that, for RTDs, heaters and thermostats, we have stated the quantity recommended for preventive maintenance inspections. The installed quantity can be found in the Spare parts list and may differ
